AKRON PROOF!

Chestnut Street

Mr. S. E. Adams, of 200 Chestnut st., employed at the Goodrich Rubber works, says: "Doan's Kidney Pills for sale at Lamparter & Co.'s drug store, helped me very much and I should have used more of them but getting so much relief from a single box and feeling no more pain I stopped the treatment. My trouble was backache, aching in my head and difficulty with the kidneys. Doan's Kidney Pills certainly relieved me, stopping the too frequent action of the kidney, secretions and otherwise benefiting me."

North Maple Street

Mrs. G. Gurney, of 302 North Maple st., says: "I had trouble with my kidneys and learning about Doan's Kidney Pills, I procured them from Lamparter & Co.'s drug store, took a course of the treatment and was benefited in every way. The aching in the back of my head, severe headache, especially mornings, and the languor and depression which weighed me down were all banished, and I could perform my household duties with pleasure."

Brown Street

Mrs. Fred Schwder of 212 Brown st., says: "I suffered much from backache, which prevented my sleeping and I was so lame across the loins that I could hardly drag myself around. It seemed as though I could not positively do my work and I knew from the kidney secretion that my kidneys were not right. Reading about Doan's Kidney Pills induced me to procure them from Lamparter & Co.'s store and the treatment did me so much good that I have had no trouble with my back since. The attacks of the backache have been lessened while before I had them nearly all the time."

South Main Street

Mrs. F. M. Wolf, of 380 South Main st., says: "Before using Doan's Kidney Pills sold by Lamparter & Co., I had a dull grinding aching over my kidneys, was lame in the small of my back, my kidneys were sluggish and I suffered from a feeling of weariness the whole time. The treatment removed the trouble in my back and my kidneys acted normally. They are a splendid remedy."

Perkins Street

Mrs. J. E. Fischmaler, of 450 Perkins st., says: "I suffered from pains in my back, from my kidneys and the secretions from those organs were in a dreadful state when I commenced using Doan's Kidney Pills. I was induced to procure from Lamparter & Co.'s drug store after reading accounts of many cures effected by them. Mornings I was completely fatigued and a never-ceasing backache was always present. Finding great relief from the first box of Doan's Kidney Pills I sent for more and their use corrected the kidney secretions so that I had no more annoyance from them. The pain was removed from my back and instead of remaining awake for hours at night, I could sleep. I am positive in saying that Doan's Kidney Pills are a reliable and effective medicine."

Some may endeavor to substitute an article they make more profit on. Insist on having the genuine. Price 50 cents. Manufactured by Foster-Milburn Co., Buffalo, N. Y.

MR. CLARK

Former Goodrich Man In New York.

He Is Doing Well In Advertising Line.

Growth of Rubber Trade In Canada.

United States Supplies a Large Part of the Demand.

Akron friends occasionally hear from W. A. Clark, who was manager of the advertising department of the Goodrich Co., for several years, and reports say that he is doing well in the advertising line in New York. Artist John A. Black of the Goodrich Co. continues to put out the pictures which Mr. Clark is credited with having originated. The picture this year showed Goodrich men on their outing. There were E. C. Tibbets and Mr. Block on route to the Pan-American in an automobile, a mammoth order book strapped on behind.

In Canada the rubber industry is growing rapidly. Each year shows a material increase in the amount of raw materials entered for home consumption, besides which the imports of rubber goods are larger than in the period when no rubber factories existed in that country. This means that the consumption of such goods is extending in Canada, and at a more rapid rate than the growth of population. So far as this growth of consumption is concerned, it is going on all over the world, including many countries which do not, like Canada, attempt to supply the home demand by home production, and this affords possibilities for wider markets for American rubber goods which ought to keep our factories busy, and prevent any cutting of prices in the American market below a level of profitable production. But not all the enterprise and activity of the Canadian manufacturers prevents the sale of rubber goods from the United States in that market. It is interesting to notice that the system of preferential duties in force in the Dominion, meant to stimulate closer trade relations with the mother country, has not increased the proportion of British

rubber goods exports to Canada. During the last fiscal year the United States supplied about 75 per cent. of the total imports of rubber goods into Canada.

WHAT WOULD PEOPLE THINK

If Mayor Doyle, like Cromwell with Parliament, should enter the Council chamber and exclaim: "I will put an end to your prating. Get you gone, give place to better men. You are no Council. The Lord has done with you?"

If Council thereupon, as one man, should grasp the Mayor by the neck and the seat of his trousers and pitch him with an exceedingly swift and energetic pitch clear through the window?

If your "Uncle Mac" should "fess up" that the Board might have been extravagant at times?

If each and every candidate were to announce publicly, "I'm not sure of the result?"

If there could be found a single cit-

izen in town who could not, immediately upon request, submit a plan whereby the municipal stringency could be relieved?

MERRY HA HA.

Given a Prison Guard by a Prisoner.

Columbus, O., Oct. 29.—(Spl.)—Guard Stallsmith, of the Penitentiary, formerly of Hocking county, is the first guard this year to fall a victim to a chestnut story of buried wealth. About once a year a prisoner who wants a favor tells some guard in confidence that he buried a vast sum of money in a certain specified locality, and that he will give the guard a per cent. of it if he will recover it for him. Stallsmith was taken in, and together with a son of Foreman Clouse, spent all day yesterday in digging on the farm of a farmer in this county. They found the right spot, but no money, and when they took the prisoner to task he gave them the laugh.

Chas. R. Wessmar, Evanston, Ill., writes: "My boy, 2 1/2 years old had a severe cold which refused to yield to any treatment until we tried Foley's Honey and Tar. He was completely cured before using one bottle." Take none but Foley's.

New York, Oct. 29.—Andrew Squire, of Cleveland, lawyer for Senator Mark Hanna and his son, Dan R., arrived here today to arrange a settlement between the younger Hanna and his former wife, Mrs. May Harrington Hanna, who has just returned from Europe with her three boys whom she took across the water in defiance of court orders.

It is understood Mrs. Hanna will be allowed to retain custody of the boys, but that the father may see them when he desires.

Mrs. Hanna and the three boys were at the Savoy Hotel while here.

One of the boys, a six-year old, is

registered at the hotel as "Colonel."

Here are the entries on the hotel register:

"Mrs. M. A. Hanna, Master Mark Hanna, Colonel Harrington Hanna, Daniel B. Hanna, Jr., and maid."

Her friends view Mrs. Hanna's return as a triumph, saying she has beaten her former husband on every point and that he appealed to her to come back. She certainly expected to meet Dan R. Hanna on the pier when the Deutschland came to port.

J. Odgers of Frostburg, Md., writes: "I had a very bad attack of kidney complaint and tried Foley's Kidney Cure which gave me immediate relief, and I was perfectly cured after taking two bottles." Be sure you take Foley's.

STEEL RAILS.

They May be Advanced In Price.

New York, Oct. 29.—(Spl.)—The Pittsburgh report that the steel rail pool will soon call a formal meeting for the purpose of considering an advance in the price of steel rails from \$28 to \$29 or \$30 a ton, has created considerable comment in iron and steel circles here. The United States Steel corporation is still quoting the \$28 price and it is understood that the great trust will argue against any advance.
